

Commemorative Trees

LONG A FAVORITE program of parents, spouses, grandparents, children, pet lovers, and organizations, the Commemorative Tree Program, sponsored by Santa Barbara Beautiful, recently received a visual boost with the implementation of a new design for both the plaque and plaque holder.

Now those who wish to commemorate, honor, or remember someone or something special can do so with this attractive marker near almost any city street tree. And because Santa Barbara Beautiful has participated in the planting of over 11,000 street trees, there are plenty of trees to choose from.

The new design, the first in over 30 years, offers a 4"x 6" horizontal plaque lettered on a dark background, embedded on in a sandstone-colored concrete holder. The new design has improved toughness and durability.
